#### Certifications:

##### Certified Public Accountant<sup>1</sup>

CPAs are licensed and regulated by their state boards of accountancy. While state laws and regulations vary, the education, experience and testing requirements for licensure as a CPA generally include minimum college education (typically 150 credit hours with at least a baccalaureate degree and a concentration in accounting), minimum experience levels (most states require at least one year of experience providing services that involve the use of accounting, attest, compilation, management advisory, financial advisory, tax or consulting skills, all of which must be achieved under the supervision of or verification by a CPA), and successful passage of the Uniform CPA Examination. In order to maintain a CPA license, states generally require the completion of 40 hours of continuing professional education (CPE) each year (or 80 hours over a two year period or 120 hours over a three year period). Additionally, all American Institute of Certified Public Accountants (AICPA) members<sup>2</sup> are required to follow a rigorous Code of Professional Conduct which requires that they act with integrity, objectivity, due care, competence, fully disclose any conflicts of interest (and obtain client consent if a conflict exists), maintain client confidentiality, disclose to the client any commission or referral fees, and serve the public interest when providing financial services. The vast majority of state boards of accountancy have adopted the AICPA's Code of Professional Conduct within their state accountancy laws or have created their own.

##### CERTIFIED FINANCIAL PLANNER<sup>™</sup> Professional

I am certified for financial planning services in the United States by Certified Financial Planner Board of Standards, Inc. ("CFP Board"). Therefore, I may refer to myself as a CERTIFIED FINANCIAL PLANNER<sup>™</sup> professional or a CFP<sup>®</sup> professional, and I may use these and CFP Board's other certification marks (the "CFP Board Certification Marks"). The CFP<sup>®</sup> certification is voluntary. No federal or state law or regulation requires financial planners to hold the CFP<sup>®</sup> certification. You may find more information about the CFP<sup>®</sup> certification at [www.cfp.net](http://www.cfp.net).

CFP<sup>®</sup> professionals have met CFP Board's high standards for education, examination, experience, and ethics. To become a CFP<sup>®</sup> professional, an individual must fulfill the following requirements:

**Education** – Earn a bachelor's degree or higher from an accredited college or university and complete CFP Board-approved coursework at a college or university through a CFP Board Registered Program. The coursework covers the financial planning subject areas CFP Board has determined are necessary for the competent and professional delivery of financial planning services, as well as a comprehensive financial plan development capstone course. A candidate may satisfy some of the coursework requirement through other qualifying credentials.

**Examination** – Pass the comprehensive CFP® Certification Examination. The examination is designed to assess an individual's ability to integrate and apply a broad base of financial planning knowledge in the context of real-life financial planning situations.

**Experience** – Complete 6,000 hours of professional experience related to the personal financial planning process, or 4,000 hours of apprenticeship experience that meets additional requirements.

**Ethics** – Satisfy the *Fitness Standards for Candidates for CFP® Certification and Former CFP® Professionals Seeking Reinstatement* and agree to be bound by CFP Board's Code of Ethics and Standards of Conduct ("Code and Standards"), which sets forth the ethical and practice standards for CFP® professionals.

Individuals who become certified must complete the following ongoing education and ethics requirements to remain certified and maintain the right to continue to use the CFP Board Certification Marks:

**Ethics** – Commit to complying with CFP Board's *Code and Standards*. This includes a commitment to CFP Board, as part of the certification, to act as a fiduciary, and therefore, act in the best interests of the client, at all times when providing financial advice and financial planning. CFP Board may sanction a CFP® professional who does not abide by this commitment, but CFP Board does not guarantee a CFP® professional's services. A client who seeks a similar commitment should obtain a written engagement that includes a fiduciary obligation to the client.

**Continuing Education** – Complete 30 hours of continuing education every two years to maintain competence, demonstrate specified levels of knowledge, skills, and abilities, and keep up with developments in financial planning. Two of the hours must address the Code and Standards.

#### **Chartered Life Underwriter, 2004**

This designation is issued by The American College and is granted to individuals who have at least three years of full-time business experience within the five years preceding the awarding of the designation. The candidate is required to take a series of mandatory courses which include, for example, the following: insurance planning, life insurance law, fundamentals of estate planning, planning for business owners, income taxation, group benefits, planning for retirement needs, and investments. Each course has a final proctored exam and once issued, the individual is required to submit 30 hours of continuing education every two years.

#### **Accredited Investment Fiduciary® (AIF®)**

The AIF designation certifies that the recipient has specialized knowledge of fiduciary standards of care and their application to the investment management process. To receive the AIF designation, individuals must complete a training program, successfully pass a comprehensive, closed-book final examination under the supervision of a proctor and agree to abide by the AIF Code of Ethics. In order to maintain the AIF designation, the individual must annually renew their affirmation of the AIF Code of Ethics and complete six hours of continuing education credits. The certification is administered by the Center for Fiduciary Studies, LLC (a Fiduciary360 (fi360) company).
